AUTOMATION AT YOUR FINGERTIPS

**AUTOMATION
OF SCREENING
FOR VISUAL DISORDERS**

► Adapts to your VT1 equipment
► Automation of all tests
► Multilingual vocal instructions
► Compact & lightweight

Depisteo

PERFORMANCE
IN THE LEAD

Convert your VT1 vision screener to an automated device VisioClick® also adapts to previous versions (from 2012).

Compact, lightweight, and **operational from the first connection**. A simple update of the VT1 software is all it takes. No operator presence required during tests. Multilingual voice instruction ensures global understanding.

| STEP 1	STEP 2	STEP 3	STEP 4
Patient is equipped with the headphones and receives vocal instructions for tests displayed on the screen.	Patient clicks on response unit to answer instructions.	Results are automatically saved.	Information is given to the patient and operator indicating the test is completed. Results are recorded and can be interfaced with all «business software».

VT1 SOFTWARE

Specific software features:

▶ Device can perform all tests individually in the order of your choice or a pre-programmed entire test protocol

▶ Creation of customizable profession-related sequences that can be performed in automatic mode

▶ Multilingual voice instructions (French, English, German, Spanish, Dutch, Italian, Polish, Portuguese, Turkish, Arabic, etc.)

▶ Interfacing with market software packages (OHM, Cority…)
